

Reaching for Light

2/18/13

Our Mission Statement: The mission of Crescent Academy is to educate and raise young people imbued with the qualities of a Muslim personality: devotion to Almighty Allah, commitment to their Islamic principles, care and service to others, and an understanding of their role in contemporary society. The goal of the school is to develop students who are empowered by their Islamic faith and practice to live as effective, conscientious, and upright citizens in the national and international community contributing to the betterment of life.

Current Plans

We are currently exploring Physical Literacy. We are focusing on maintaining a healthy mind, body, and soul. In class we learned the significance of eating and drinking with proper moderation. Excessive consumption of unhealthy beverages can be harmful for us. We must understand how to measure various amounts of liquids in order to find balance. Therefore, we will learn to measure cups, pints, liters, and gallons. Students will learn the relationship between these measurements and why it's important for us to be able to recognize them.

Our focus remains on maintaining a healthy environment as well. Students are expected to practice healthy living through the care for all things. Students are to maintain clean working spaces both inside and outside the classroom.

We are teaching students to be especially considerate while using bathrooms and to leave them in the best of conditions. Please help support us in this matter by reinforcing proper bathroom etiquettes at home and elsewhere.

The Skeletal System

We are beginning our exploration of the human body systems. We will begin studying the skeletal system and learn its basic functions. Students will learn the benefits of the skeletal system and Insha'Allah, realize how fortunate we are to be blessed with this system. Please assist your child in discovery by allowing them access to the public library in order to check out materials regarding the skeletal system.

I would like to thank Zara Malik for an amazing job with her class presentation on the skeletal system. Last Tuesday, Zara shared a very beneficial presentation with our entire class on the significance of the skeletal system. I would like to call on more volunteers who would love to share their understandings and enlighten our class on the skeletal system. Please let me know if you are interested in presenting and I will do my best to schedule you in right away.

Notes and Reminders:

- March 15: Student led Conferences
- March 23: Annual Children's Performance and Fundraising Dinner

I hope this finds you all healthy and happy. If you need to reach me you can send a note, call the office, or send an email.

*All the Best,
Br. Radwan
